

## ABOUT US

Disano illuminazione was established in 1957 and rapidly developed into a market leader for professional lighting products such as water-tight fixtures and street-light.

Its growth went hand in hand with constant investments in the industrial and commercial lighting sectors, enabling it to expand its range of luminaires.

In the '90s, the company established Iluminación Disano, headquartered in Tarragona, Spain and Disano France with offices in High Savoy. It then expanded in European and non-European countries thanks to Representative Offices, hence providing the Disano group with an international presence, which has grown steadily over the years.

Following the success of its range of industrial lighting fixtures, the company is now capable of meeting the new requirements of an increasingly demanding lighting market, turning into one of the most well-known and best regarded Italian lighting manufacturers in Europe and in the world.

Its head office is in Milan, near a highly advanced and entirely automated logistics and manufacturing site in the province of Pavia.

The Disano group includes Iluminación Disano, Disano France and the following Representative Offices: Disano Russia, Disano Belux, Disano Ireland, Disano Czech Republic & Slovakia, Disano Portugal, Disano Middle East, Disano America Latina, Disano Africa, Disano Adria, Disano Polska.

- Founded in 1957 by Mr. Disano
- Logistics are located in Dorno ( and cover an area of 16,396 sq.m.
- This area also included an automated warehouse with an overall handling capacity for 22,500 pallets
- A showroom of 1 000 sq.m. can be visited at Disano's historical HQ in Rozzano
